FOR PRESS STATEMENT

Recruit Bright Temporarily Unavailable on Apple App Store.

Recruit Bright, a leading provider of AI-powered recruiting software, announced today that its app is temporarily unavailable on the Apple App Store. The company is currently working with Apple to resolve the issue and expects to have the app restored to the App Store as soon as possible.

In the meantime, Recruit Bright users can continue to access the platform through its web app. The web app offers all of the same features as the mobile app, including the ability to post job openings, screen resumes, and schedule interviews.

Recruit Bright apologizes for any inconvenience this may cause its users. The company is committed to providing its customers with the best possible experience and is working hard to get the app back on the App Store as quickly as possible.
